Producer's Message

On behalf of the ALP-SEBB Events team, WELCOME to Black and Blue Weekend 2026. We have created new branding for the event but are maintaining the same exceptional programming you have come to expect from us. We are excited for what this weekend has in store for each of you as we continue to bring you premium BDSM & Kink education.

As has been the long-standing tradition of Black & Blue Weekend, we continue to limit attendance in order to provide a more intimate space with more opportunities for 1 on 1 time with presenters and networking/socializing with likeminded kinksters. We take pride in providing a diverse selection of workshops from a just as diverse panel of presenters. With that, we are always open to your feedback on how we can improve, including additional subjects and instructors we should be considering having participate at our future events.

This has been a year of transition for the SEBB team as we navigate the retiring of long term leadership and the introduction of new leadership into the staff. We will continue to reshape our programing as the need arises.

I could not make this weekend or any of our events happen alone and cannot express my gratitude for my dedicated staff. When you get a chance make sure to thank Pup Dodger, Buck, boy Muel, Scott Wolf, and my ever supportive partner Dr. Bedlam for all of the time and support they put into helping us make events like this happen.

A huge thanks to each and every one of you for your continued support of Black & Blue Weekend and ALP-SEBB Events at large.

Have a great and kinky weekend!

Jack Handcock

Workshop Descriptions

Gumby And Pokey
An Introduction To Pressure Point Play

Master Archer Bar 2

Pressure points can be the ultimate lazy top toy. While it can take years to learn the more than 200 pressure points and their associated medical effects a few general rules and techniques can allow you to use this technique relatively safely. Points can be used to inflict mild to severe pain, but they can also be used to inflict varying degrees of pleasure. If permitted by the facility, this class will also incorporate the use of cigars in pressure point play. This can be a class where service oriented bottoms can learn useful things at the same time that sadistic tops can learn ways to get maximum results with minimal physical effort.

Pet Headspace: Permission to Be Playful Again

Pup Ruff Drag

Explore the transition from overthinking to simply being present. Through guided exercises, movement, and low-pressure interaction, participants will learn practical techniques for quieting their inner critic, connecting with others, and discovering a more natural, instinctive pet play headspace. Whether you identify as a pup, handler, kitten, pony, or another type of pet, this experiential workshop is designed for all experience levels and requires no gear or prior experience—just a willingness to explore and be present.

Forging Dreams:
Bringing Kink Concepts to Life

Bunny Dance

Every great piece of gear starts with an idea—but how do you take that spark in your head and turn it into something someone can actually use, package, and put on a shelf?

In Forging Dreams, Bunny Zahn walks through the journey of kink product development, from the first “Wouldn’t it be hot if…” to a workable prototype and, ultimately, a finished retail product. We’ll explore how to evaluate an idea, identify the problem or desire it fulfills, choose materials, develop and test prototypes, incorporate feedback, and refine a concept for production.

We’ll also discuss the less glamorous—but essential—parts of bringing a product to market: sourcing, manufacturing considerations, pricing, packaging, and balancing fantasy with safety, functionality, and cost.

Drawing on years of experience as a fetish product buyer and sex toy designer, Bunny will share lessons learned, common pitfalls, and practical tips for turning creative kinky concepts into something tangible.

Whether you have a notebook full of ideas, a half-finished prototype on your workbench, or simply want a behind-the-scenes look at how your favorite gear gets made, this class will help bridge the gap between imagination and creation.

CHASTITY: The Pleasure Principle

Nash Bar 2

Curious about chastity play but not sure where to begin? Whether you're interested in wearing a cage, becoming a keyholder, or simply learning more about this popular kink, Chastity: The Pleasure Principle, led by Nash, provides an accessible introduction to the fundamentals of chastity.

This workshop explores how to choose the right device, achieve a comfortable fit, wear a cage safely, and navigate hygiene, long-term lockup, and everyday practicalities. We'll also discuss the psychology of chastity, the dynamics between wearer and keyholder, and the unique blend of anticipation, frustration, and eroticism that draws so many people to this form of play. Along the way, we'll separate common myths from reality and answer your questions in a welcoming, judgment-free environment.

Live models will demonstrate a variety of chastity devices, and attendees will have the opportunity to examine different styles up close and explore what works best for their needs.

Removing The Stigma Of Service Topping

Service Topping Without Becoming A Fetish Delivery System.**

Master Archer Drag

Service Top…..eww. Many people dismiss Service Tops as if they are not really dominant and the term gets used as a pejorative. Service Topping can be a wonderful experience for people who have a dominant personality and are fulfilled by providing service. The two things are not mutually exclusive however, Service Topping can sometimes end with the Top not getting their needs met. Learn ways of being comfortable as a Service Top and how to negotiate to avoid burn out and get our needs fulfilled.

Leather Working 101

Bunny Dance

Ever wondered what goes into turning a piece of leather into a piece of functional bondage gear? In Leather Working 101, Bunny Zahn will take you through the process from hide to hardware by demonstrating the creation of a pair of leather wrist restraints.

Along the way, we'll explore the history and traditions of leatherworking, how to select and work with different types of leather, the tools and hardware involved, and the fundamentals that help make a finished piece both functional and durable. Bunny will also share practical tips, tricks, and lessons picked up through years of designing and working with fetish gear.

Whether you're interested in making your own gear, want to better understand the leather pieces already in your toy bag, or are simply curious about the craft, this class offers an approachable introduction to leatherworking with a distinctly kinky purpose.

No previous leatherworking experience is required—just curiosity and an appreciation for well-made gear.

Shibari Chest Harnesses

Pup Volt Patio

In this introductory rope bondage class, we will be learning how to tie upper-body harnesses. These patterns are primarily decorative, not restrictive, and we will go over as many different patterns as time allows. Please bring a partner to practice with, or be prepared to pair up with another participant. You are also encouraged to bring your own rope, but some spare rope will be available to borrow.

EDGING: To the Moon and Back

Nash Bar 2

What happens when the journey becomes more exciting than the destination? Edging: To the Moon and Back is an exploration of orgasm control, delayed gratification, and the techniques that can transform pleasure into an extended experience.

Designed for beginners and experienced players alike, this workshop focuses primarily on edging techniques for people with penises, though the principles of communication, anticipation, and control apply to many bodies and relationships. We'll cover solo and partnered techniques, pacing, consent, and ways to build longer, more satisfying sessions. The class will also introduce a variety of toys, accessories, and creative household items that can enhance the experience.

Through live demonstrations with volunteer models, participants will see techniques in action, gain practical knowledge, and have opportunities to ask questions in an interactive, sex-positive learning environment.

Creating a Leather Journey

GoddessMW Drag

This led discussion explores identity, growth, and community impact through 6 key themes: Discovery and Claiming Identity, Encouraging Diversity, Inclusivity and Informed Consent, Engagement: Education and Advocacy, Stepping into Leadership, Evolving Leather Identity and Mastery, and Future Vision and Legacy.

Introduction to Erotic Hypnosis

Neil Dance

This class is open to anyone with an interest in hypnosis and its erotic and kinky uses. We'll cover the following topics:
* What hypnosis is (and isn't)
* A brief history of hypnosis
* What can (and can't) be done with erotic hypnosis
* How hypnosis can be used to enhance a BDSM scene, or as a scene on its own
* Safety concerns and potential risks of hypnosis play
* What a hypnosis play session looks like

There will be a short demo, as well as Q&A.

Chaos Corgi's Gunge Lab

Pup Ruff Patio

Chaos Corgi's Gunge Lab is an exploration of messy play through the lenses of sensory experience, negotiated vulnerability, emotional release, and joyful chaos. While slime, foam, and other messy materials may be the tools, the real focus is on the experiences they create and the connections they foster.

So You Like Chicks with Dicks… Now What?

Anna Baxter Bar 2

Find yourself attracted to transgender and gender non-conforming people but not sure how to approach someone sexy for dating or sex with kindness and respect? With the right attitude and language you can help a transgender person feel more comfortable with their body and more confident in themselves (and more attracted to you). We will discuss everything from flirting and dating to sex/play and happily ever after.

Boot Play

Rene Drag

Boots are sexy, look great, are lickable… and are wonderful toys for BDSM used by the right person. In this class we'll discuss the versatile nature of boots in a dungeon space, and how we can get our play off on the right foot. Learn how to kick your play up a notch and step into the wonderful and varied world of boot play.

Biting and Other Animalistic Energy Exchanges and Play

Dance

Sir BigRed

Come sink your teeth into the juicy, sensational, and tasty morsels of Biting and Other Animalistic Energy Exchanges and Play. Biting is as much a Sadist's delight, as a sweet gift of succulent service. It is an energy exchange and manipulation that can be deeply sensual, physical, sadistic, playful, erotic, spiritual, emotional, and mental.

Via experiential learning we'll discover how things such as biting, scratching, clawing, licking, and sucking can be beneficial tools of control and intimacy in the BDSM relationship, setting a scene, full body explorations, techniques, and safety.

Cigar Play: A Smokin' Good Time

Weasel Patio

In this class, participants will learn how to incorporate heat, ash, and smoke into their BDSM play through the use of cigars. Participants will also learn about safety precautions when using cigars in their kink scenes, including proper handling/care of cigars, aftercare, and safety gear to have on hand.

Boardroom BDSM

Pup Ruff Bar 2

Learn how the communication and power dynamics of consensual BDSM can provide valuable lessons for the workplace. By examining concepts like consent, negotiation, boundaries, trust, and aftercare through a non-sexual lens, participants will gain practical tools for improving leadership, collaboration, accountability, and workplace communication. This class is about recognizing power, communicating with intention, and leading responsibly—not bringing kink into the office.

Bootblacking in the Playroom:

Rene Drag

Kinks rarely exist in a vacuum, and Bootblacking is no exception. In this class we'll discuss how Bootblacking can be integrated into almost any other form of kink and BDSM, using the boots and your kit as a vehicle for all sorts of fun activities.

Female Orgasm Tease, Denial, and Control

Sir BigRed **12:30P – 2:00P** Bar 2

Orgasm tease, denial and control can be a hot stand-alone scene of several hours or an ongoing component of a dominant-submissive dynamic. Male orgasm control seems fairly simple: lock up his goodies. But how does one control the female orgasm short of a medieval (and impractical) chastity belt? Join us for this interactive conversation on female orgasm tease, denial, and control.

We will discuss the differences between tease, denial, and control as well as the psychological and physiological impacts of each. We will share ideas for devious tease & denial games and techniques and pointers for maximizing the fun for both the teaser and the teased. Orgasm tease, denial, and control is not hot or even appropriate for all people and we'll cover the characteristics of a good candidate for this deliciously torturous form of play.

NeuroSpicy

Anna Baxter Drag

Neurodivergence has become a hot topic on the internet in the 2020s but what does it actually mean? How does neurodivergence affect individual players in our community, how does it affect our community as a whole? Anna Baxter, LPC will provide introductory information on neurodivergence, play a little audience participation game, and discuss how neurodivergence can change how people conduct their kinky scenes and relationships.

They are passionate about providing a safe space for clients to find internal and external peace by living and loving more authentically. They particularly love working with transgender and gender expansive youth (13-25) and people in alternative (polyamorous/kinky) relationships as they shed cultural expectations around gender and sexuality.

Master Archer

Leather, just the sound of the word gives a sense of the sensual power of treated skins. As a teen Archer started working with leather, the smell and feel of it had some primal effect on him. Even then the power images of leather had a part in his sexual fantasies. Leatherwork went by the wayside for awhile but returned in Dallas TX in 1996 when he started his leather business, Fantasies In Leather.

Archer's relationship with his slave Elegant started in September of 1998 and prompted him to get more involved with the leather community. His immediate leather family now also includes Trinity, Renee and Boi Lane. Archer received the 2009 Pantheon of Leather Southeast Regional award. He is an Environmental Health & Safety Professional and incorporates this technical knowledge in many of his presentations. He provides educational experiences to groups large and small on subjects ranging from S&M technique to Using Exemplars For Master/slave Development and classes on the spiritual application of BDSM activities. Archer identifies as an Eclectic Shaman and completed Fakir Musafar's body piercing and branding intensive schools in order to offer these arts with a more spiritual, less clinical focus.

In his free time, Ed is self-described nerd. You will find him reading, playing video games, playing Magic the Gathering or making dad jokes.

Pup Pannox

he/him/good boy

Pup Pannox hails from Columbia, SC and is frequently found roaming events in the Southeast Region. His love of leather care started with the military and has continued in taking care of gear for friends, and bootblacking at bar-nights, kink and pup events. Nothing makes him happier than scritches, belly rubs, and the smell of leather.

Renee Herbert

Your Friendly Neighbourhood Bootblack, International Mr. Leather 2025!

Rene is an accomplished bootblack and kink educator, with almost 20 years active in the Leather community, most of which as a Bootblack. He has been contributing to Bootblack education and teaching classes with a focus on boot play, bootblacking, and leather care since 2015, and has taught kink and play classes for events and clubs such as Edmonton Players in Gear, Palm Springs Leather Order of the Desert, Northwest Leather Celebration, and GearUp Weekend. During his year as IML, Rene has worked to uplift fellow bootblacks in the community where he can, and work the stand at the various events.

A versatile switch, Rene finds enjoyment in prioritizing connected experiences when engaging in play regardless of the type of play, or position and role he finds himself in.

When not bootblacking, he can be found nerding out with friends over card and video games, telling bad jokes that he knows will get him in trouble, singing along with showtunes in his car, and posting shameless thirst-trap selfies from the gym locker room.

Jack Handcock

Education Director

Jack is a sadistic S.O.B. who enjoys many flavors of BDSM play including electro, impact, and CBT. Jack's passion within the lifestyle is Rope Bondage. He has been handling rope since he was a child and because of this rope can be seen as an extension of him. Jack is the coordinator for Atlanta's Men in Rope (est. 2015). AMiR's (ah – me – er's) focus is on introductory and intermediate rope skills with male identified bodies participating as rope models being tied by those who want to tie men. As of Summer 2025, AMiR has merged under the Southeast Black and Blue umbrella of events. Outside of AMiR, Jack's teachings focus on tying bodies not tying genders. Jack has been teaching, volunteering, and producing events since he was a child. In the Spring of 2023, Jack started Getting Knotting, a quarterly rope practice presented at the Atlanta Eagle. Getting Knotting is co-hosted by Atlanta's Men in Rope, Rope Bite Atlanta, Atlanta Hitchin' Bitches, and ALP-SEBB. In the fall of 2023, Jack joined the Southeast Black and Blue team as Education Coordinator. In the Summer of 2025, Jack stepped into the role of Executive Director for SEBB.
